To: All Training Officers of the Agency

SYSTEM DYNAMICS: PRINCIPLES AND APPLICATIONS

System Dynamics, a simulation methodology developed by Professor Jay Forrester of the Sloan School, MIT, has been used increasingly to analyze complex, interdependent problems relevant to intelligence--natural resource shortages, economics, population, food, military situations, and a wide spectrum of management problems.

Lectures and workshop sessions illustrating intelligence applications will be used in presenting all facets of the methodology. Topics to be treated in the course will include economic, political, behavioral, management and other applications, together with thorough coverage of the principles and techniques of System Dynamics. At the end of the course the students, working in teams, will be given direct experience in applying the methodology to a problem of current interest.

OBJECTIVES:

To develop sufficient understanding and skill through lectures and practice in applying System Dynamics principles and techniques so that attendees will be able to:

- a) Decide confidently when the use of the System Dynamics methodology would be beneficial in analytic or management problems;
- b) Evaluate effectively the potential capabilities and limitations, and other factors of importance, which foreign and domestic organizations are likely to encounter when using the System Dynamics methodology; and
- c) Communicate intelligently with the representatives of organizations who are using the System Dynamics methodology to study important problems, e.g., natural resource-trade flow relationships.

(over please)

ADMINISTRATIVE- INTERNAL USE ONLY

ELIGIBILITY:

Officers whose responsibilities may require a knowledge of the System Dynamics methodology. No previous technical or scientific education or training is necessary.

SECURITY:

Final ~~TOP SECRET~~ security clearance with certification of access to SI/TK is required.

DATE AND TIME:

29 September through 10 October 1975, 0900-1600 hours, two-weeks, full-time.

LOCATION:

4600 Fairfax Drive, Arlington, Virginia (Chamber of Commerce Building). No transportation will be provided. Detailed instructions on directions to the building, parking and classroom number will be mailed to the students prior to the start of the course.

REGISTRATION:

Form 73, "Request for Internal Training" must be submitted to OTR/Registry, Room 936, Chamber of Commerce Building, by 15 August 1975. These requests will be submitted through the Training Officer of each Directorate and through [REDACTED] as personnel of STATINTL other Intelligence Community agencies will attend this course.

FURTHER INFORMATION:

On course content call [REDACTED], Extension [REDACTED],
